

Complete Strategic Enhancement Plan for Kazi Agency

Strategic Positioning

Brand Position: "Digital Architects for Ambitious Brands: We Build Web Experiences That Convert Vision into Growth"

Positioning Pillars:

1. Strategic Design Partners: Not just vendors, but collaborators who understand business goals
2. Results-Driven Creativity: Beautiful design backed by metrics and ROI
3. Local Expertise, Global Standards: Understanding Spanish/European markets with international quality
4. Transparent Process: Clear timelines, pricing, and communication

CRITICAL: Lead Generation & Conversion Architecture

Complete Conversion System

User Journey Mapping:

AWARENESS → CONSIDERATION → DECISION → ACTION → RETENTION

Visitor arrives (SEO/Ads/Referral)

Landing on service page

Engagement with content (case studies, pricing)

Intent-based CTA selection

Conversion action

CRM entry & nurture sequence

Intent-Based CTA Strategy

By visitor intent, offer different conversion paths:

High Intent (Ready to Buy):

- "Solicitar Presupuesto en 48h" → Direct to detailed brief form
- "Reserva tu Consulta Estratégica" → Calendar booking (Calendly)
- "Habla con un Experto Ahora" → Live chat/WhatsApp

Medium Intent (Evaluating):

- "Ver Casos de Éxito Similares" → Filtered portfolio
- "Descargar Guía: Cómo Elegir Tu Agencia Web" → Lead magnet + email capture
- "Calcular Inversión Estimada" → Interactive pricing calculator

Low Intent (Learning):

- "Auditoría Web Gratuita" → Low-commitment offer
- "Suscríbete al Newsletter" → Content nurture
- "Explorar Recursos" → Blog/guides

Post-Submission Experience

Immediate (Auto-responder):

- Confirmation email with: "Gracias [Name], hemos recibido tu solicitud"
- What happens next (timeline)
- Link to calendar if not yet booked
- Relevant case study attachment

Within 24 hours:

- Personal follow-up from account manager
- "¿Cuándo te viene bien una llamada de 15min?"

Behind the scenes:

- Lead tagged by service interest (Web Design, eCommerce, SEO)
- Assigned to appropriate team member
- Added to CRM with source tracking

- Slack/email notification to team

Technical Integration Requirements

Must-have integrations:

- **Forms:** Gravity Forms or WPForms with conditional logic
- **CRM:** HubSpot (free tier) or Pipedrive
- **Calendar:** Calendly embedded with routing logic
- **Chat:** Tidio or Crisp with AI pre-qualification
- **WhatsApp:** Click-to-chat with pre-filled message templates
- **Email:** Automated sequences via MailerLite or ConvertKit

Conversion Tracking

Key metrics dashboard:

- Form submission rate by page
- Calendar booking conversion
- Time to first response
- Lead-to-consultation ratio
- Consultation-to-proposal ratio
- Proposal-to-close ratio

Service-Specific Landing Pages (SEO + Conversion)

Required Landing Pages

Each core service needs a dedicated, optimized page:

- Your success = our reputation

Objection-Handling FAQ

Strategic FAQ placement: After pricing section

Key objections to address:

Pricing Concerns:

Q: "¿Por qué cuesta más que otras opciones?" A: "Inviertes en estrategia, no solo diseño. Nuestros clientes ven ROI en 6-12 meses porque construimos webs que convierten visitantes en clientes. Una web barata que no genera ventas es dinero perdido."

Q: "¿Ofrecen planes de pago?" A: "Sí. 50% al inicio, 30% a mitad de proyecto, 20% al lanzamiento. También aceptamos pago mensual para proyectos €8,000+."

Timeline Concerns:

Q: "¿Cuánto tarda realmente?" A: "Proyectos típicos: 6-12 semanas desde kickoff hasta lanzamiento. Los retrasos más comunes vienen de clientes (contenido, feedback). Nosotros cumplimos plazos si tú cumples los tuyos."

Q: "¿Puedo acelerar el proceso?" A: "Posible con equipo dedicado (+20% coste) o alcance reducido en Fase 1."

Maintenance & Ownership:

Q: "¿La web es mía o de ustedes?" A: "100% tuya. Código, contenido, dominio. Sin ataduras. Mantenimiento es opcional (pero muy recomendado)."

Q: "¿Qué pasa si cancelo mantenimiento?" A: "Tu web sigue funcionando, pero sin actualizaciones de seguridad, backups, ni soporte. Como un coche sin revisiones — funciona hasta que no funciona."

Process & Control:

Q: "¿Puedo hacer cambios durante el proyecto?" A: "Pequeñas iteraciones: sí. Cambios grandes: evaluamos impacto en tiempo/coste. 2 rondas de revisión incluidas por fase."

Q: "¿Y si no me gusta el diseño?" A: "Empezamos con wireframes (sin color) para validar estructura antes de diseñar. Reduces riesgo en 90%. Y tienes 2 revisiones en UI design."

Social Proof Variations

Industry-Specific Testimonials: samples

"Testimonios por Sector"

- Barber shop : "Cómo X Hotel aumentó reservas directas 40%"
- Retail: "La tienda online de Y creció 3x en 6 meses"
- Services: "El despacho Z ahora genera 15 consultas/semana"

Video Testimonials:

- 30-60 second client videos
- Key question: "¿Qué resultado específico lograste con Kazi?"
- Show in rotation on homepage
